

Donation Pledge Policy

Please know that gifts of all sizes are essential to the success of our Campaign. Gifts of \$250 or more will be recognized in an alphabetized listing in the medical entrance waiting area.

Thank you for your support.

Extended Donation Pledges

One-time donations are preferred because they can be used directly for the facility without financing expenses. However, this campaign will gladly accept gifts on multi-year planned giving basis.

Planned Giving Pledges

Donation pledge may be made and spread up to five years. We have included in the budget for the project financing for the second to fifth years of pledges assuming equal payments over the five years.

Customized Pledge Arrangements

In special circumstances, pledge timing and payment amounts may be customized for a donor. This is in recognition that donors have varying financial situations and giving goals that may not conform to an even five-year payment schedule. A separate form will need to be completed that indicates year of giving and amount. Gifts received within the five years will be included in the budget for facility improvements. Gifts that are planned or given as part of this campaign will be included in the endowment fund.

Planned Giving Pledges

Planned giving pledges such as gifts in a will, life insurance, commercial annuities and trusts may also be gifted. Depending on the anticipated timing of receipt of funds, they may be included in the facility improvement portion of the campaign or the endowment.
